

Bunk pictured in Tasmanian Oak

Scoop Bunk

Defined by its elegant curves and simplicity, drawing inspiration from carved stone, Scoop possesses a distinctly sculptured profile. Interlocking joints that allow the bed to soar to a tiered space saver. Scoop is defined by its generous proportions and peek-a-boo cut outs.

Handcrafted using solid timber in either Tasmanian Oak or American Oak each with natural and distinct wood grain features. With durability and safety in mind, the Scoop bunk bed is constructed to meet the complex matrix of the toughest testing and safety standards in Australia (by Furntech)*. The design evolved through prototype experimentation until Lilly & Lolly had proven the performance and durability of the design.

Designed and manufactured on Australian soil using sustainably sourced timber, this piece of furniture promotes a better night's rest and a better future for our kids.

*Australian Standards Approved. Furntech Certificate no. 14458/2.
